# VCA - external male genitalia transplant recipient registration

OMB No. 0915-0157, Expiration date: 9/30/2026

The transplant recipient registration (TRR) forms are generated and available after a transplant event is reported to the OPTN. The TRR record is completed by the transplant hospital performing the transplant. The registration and hospital discharge follow-up information is combined in this record.

Complete the TRR at hospital discharge or six weeks post-transplant, whichever is first. If the recipient is still hospitalized at six weeks post-transplant, provide the most recent information available regarding the recipient's progress.

Complete one TRR form for recipients of bilateral upper limbs. Complete separate TRR forms for each VCA organ transplant.

The TRR must be validated within 90 days of the record generation date. Example: If the recipient is removed as being transplanted on 10/1/XXXX, the TRR form will be due 90 days from that date, 12/30/XXXX. See OPTN Policies (https://optn.transplant.hrsa.gov/policies-bylaws/policies) for additional information.

Patient status - Tra	splant hospitalization
----------------------	------------------------

Question	Answers
Date of admission to transplant center*	
Date of discharge from hospital	

#### Patient status

Question	Answers
Date last seen, graft removed, or death*	
Patient status*	
If patient status is "Dead", select the patient's cause of death	
Primary cause of death	
Other, specify	

## Socio-demographic information: Pre-transplant

Question	Answers
Highest education level*	
For recipients 18 years of age or older	
Working for income	

# Socio-demographic information: Pre-transplant - Source of payment

Question	Answers
Grant funding*	
Institutional funding*	
Primary source of payment*	
If primary source of payment is "Foreign government, specify" select foreign government	
Primary source of payment - foreign government, specify	

# Clinical information: Pre-transplant

Question	Answers
Enter height or height status	
Height (cm: 1.00-225.00)	

Height status		_
Enter weight or weight status		
Weight (kg: 0.45-294.84)		
Weight status		
Primary diagnosis for transplant*		-
Primary diagnosis for transplant - other, specify		-
		-
Previous transplants (VCA or non-VCA organs)*		-
Previous skin graft(s)*		-
Was patient hospitalized during the last 90 days prior to the transplant admission*		-
Medical condition at time of transplant*		-
Any tolerance induction technique used*		
Pre-transplant blood transfusions*		-
For recipients whose birth sex is female		
Number of pre-transplant pregnancies (which may or may not have resulted in a live birth: 0-50)		•
Malignancies prior to transplant*		
If malignancies prior to transplant is "Yes", select type		
Specify type (select all that apply)	☐ Breast ☐ CNS tumor	
	Genitourinary	
	Hepatocellular carcinoma	
	Leukemia/Lymphoma	
	Lung	
	Skin: melanoma	
	Skin: non-melanoma	
	Thyroid	
	Tongue/throat/larynx	
	Other, specify	
Other, specify		-
Clinical information: Pre-transplant - Amount of tissue loss		
Question	Answers	
Other VCA organ type - other, specify	7.110.1101	
Suiter Conforgalitype Suiter, speeding		
		<u>//.</u>
Clinical information: Pre-transplant - Viral detection		
	Anewore	
Question  HIV serostatus*	Answers	
CMV status*		-
HBV core antibody*		-
HBV surface antigen*		-

HCV serostatus*		
EBV serostatus*		
Did the recipient receive Hepatitis B vaccines prior to transplant?*		-
Reason not vaccinated		-
Other, specify		-
Clinical information: Pre-transplant - Pre-transplant labs		
Question	A	
Enter serum creatinine or serum creatinine status	Answers	
Serum creatinine (mg/dL: 0.10-25.00)		
Serum creatinine status		<del>-</del>
Enter hemoglobin A1c or hemoglobin A1c status		-
Hemoglobin A1c (%: 0-100)		
Hemoglobin A1c status		-
Calculated PRA (CPRA) at transplant (%: 0-100)*		
Donor crossmatch result*		-
Functional status: Pre-transplant		
Question  For recipients younger than 18 years of age at transplant	Answers	
Motor development		
Motor development

Topical immunosuppressive medication - Topical drugs used for act	ute rejection or maintenance
Question	Answers
Steroids (Clobetasol)	Maintenance indication
	Anti-rejection indication
Tacrolimus (Protopic)	☐ Maintenance indication
	Anti-rejection indication
Other, specify 1	
Other, specify 1 - Acute rejection or maintenance	
······································	Maintenance indication  Anti-rejection indication
Other, specify 2	
Other, specify 2 - Acute rejection or maintenance	
	Maintenance indication

Anti-rejection indication

## Non-topical immunosuppressive medication - Drugs used for induction, acute rejection, or maintenance

Question	Answers
Steroids (prednisone, methylprednisolone, Solumedrol, Medrol, Decadron)	☐ Induction indication ☐ Maintenance indication ☐ Anti-rejection indication
Steroids (prednisone, methylprednisolone, Solumedrol, Medrol, Decadron) - Number of days of induction (0-365)	
Steroids (prednisone, methylprednisolone, Solumedrol, Medrol, Decadron) - Status	
Non-topical immunosuppressive medication - Drugs used for induct	ion or acute rejection  Answers
Atgam	☐ Induction indication ☐ Anti-rejection indication
Atgam - Number of days of induction (0-365)	
Atgam - Status	
Campath (alemtuzumab, anti-CD52)	☐ Induction indication ☐ Anti-rejection indication
Campath (alemtuzumab, anti-CD52) - Number of days of induction (0-365)	
Campath (alemtuzumab, anti-CD52) - Status	
Cytoxan (cyclophosphamide)	Anti-rejection indication
Methotrexate (Folex PFS, Mexate-AQ, Rheumatrex)	Anti-rejection indication
OKT3 (Orthoclone, muromonab)	☐ Induction indication ☐ Anti-rejection indication
OKT3 (Orthoclone, muromonab) - Number of days of induction (0-365)	
OKT3 (Orthoclone, muromonab) - Status	
Rituxan (rituximab)	☐ Induction indication ☐ Anti-rejection indication
Rituxan (rituximab) - Number of days of induction (0-365)	
Rituxan (rituximab) - Status	
Simulect (basiliximab)	☐ Induction indication ☐ Anti-rejection indication
Simulect (basiliximab) - Number of days of induction (0-365)	
Simulect (basiliximab) - Status	
Thymoglobulin	☐ Induction indication ☐ Anti-rejection indication

Thymoglobulin - Number of days of induction (0-365)

Thymoglobulin - Status

# Non-topical immunosuppressive medication - Drugs primarily used for maintenance

Cyclosporine, select from the following:	
EON (generic cyclosporine)	Maintenance indicator
Gengraf (Abbott cyclosporine)	Maintenance indicator
Neoral (CyA-NOF)	Maintenance indicator
Other generic cyclosporine, specify brand	
Other generic cyclosporine	Maintenance indicator
Sandimmune (cyclosporine A)	Maintenance indicator
Imuran (azathioprine, AZA)	Maintenance indicator
Leflunomide (LFL)	Maintenance indicator
Mycophenolate acid, select from the following:	
CellCept (MMF)	Maintenance indicator
Generic MMF (generic CellCept)	Maintenance indicator
Myfortic (mycophenolate acid)	Maintenance indicator
Nulojix (belatacept)	Maintenance indicator
Rapamune (sirolimus, Rapamycin)	☐ Induction indication ☐ Maintenance indicator
Rapamune (sirolimus, Rapamycin) - Number of days of induction (0-365)	
Rapamune (sirolimus, Rapamycin) - Status	
Tacrolimus, select from the following:	
Astagraf XL (extended release tacrolimus)	Maintenance indicator
Generic tacrolimus (generic Prograf)	Maintenance indicator
Prograf (FK506)	Maintenance indicator
Zortress (everolimus)	☐ Induction indication ☐ Maintenance indicator
Zortress (everolimus) - Number of days of induction (0-365)	
Zortress (everolimus) - Status	
Other drugs	
Other immunosuppressive medication, specify:	
Other immunosuppressive medication 1	☐ Induction indication ☐ Maintenance indication ☐ Anti-rejection indication
Other immunosuppressive medication 1 - Number of days of induction (0-365)	
Other immunosuppressive medication 1 - Status	
Other immunosuppressive medication, specify:	

Other immunosuppressive medication 2	☐ Induction indication ☐ Maintenance indication ☐ Anti-rejection indication
Other immunosuppressive medication 2 - Number of days of induction (0-365)	
Other immunosuppressive medication 2 - Status

(OPTN)

DATA ACCURACY CERTIFICATION: I certify that the data entered by me in UNet<sup>SM</sup> are accurate, timely, and complete to the best of my knowledge, information and belief. These data are based upon information contained in corresponding medical records and other source documents, or where appropriate, are based upon clinical observation.

PUBLIC BURDEN STATEMENT: An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this project is 0915-0157. Public reporting burden for the applicant for this collection of information is estimated to average 53 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to HRSA Reports Clearance Officer, 5600 Fishers Lane, Room 1033, Rockville, Maryland 20857.

PRIVACY ACT STATEMENT: In accordance with the requirements of the Privacy Act of 1974 (https://www.federalregister.gov/documents/2022/08/01/2022-16344/privacy-act-of-1974-system-of-records) as amended, 42 U.S.C. § 273, et seq., and 42 CRF Part 121 authorize collection of this information by the OPTN. This information is distributed to the Scientific Registry of Transplant Recipients (SRTR) and the Health Resources and Services Administration (HRSA), with the United States Department of Health and Human Services. The primary uses of this information are to match organ donors with recipients, to monitor compliance of member organizations with OPTN requirements, to review and report on the status of organ donation and transplantation in the United States, and to provide data to researchers and government agencies to study transplantation. The routine uses which may be made of this information are: (i) to organ procurement organizations and transplant hospitals to match organ donors with compatible recipients and validate the accuracy of donor and recipient; (ii) to the Department of Justice to use in defending litigation; (iii) to a congressional office upon the request of an individual concerning records pertaining to him/her; (iv) for research purposes, if certain requirements are satisfied and data use agreements are executed; and (v) to Agency contractors who have been engaged by the Agency to assist in accomplishment of an Agency function relating to the purposes of this system and who need to have access to the records in order to assist the Agency. Furnishing the remaining information requested is required by law of organ procurement organizations and transplant hospitals and the failure to submit such information may result in enforcement actions resulting from noncompliance with OPTN requirements.
