## Applicant for a Clinical Transplant Program

### Instructions

1. A clinical transplant program applicant **must** have previously completed the General Section of the OPTN application for institutional membership. For the purposes of applying for additional transplant programs, an organ specific application must be completed for each program. Criteria for Institutional Membership are found in the Bylaws.

Transplant programs are:

- |   |               |
|---|---------------|
| A. Kidney (including Living Donor Kidney) | E. Pancreas   |
| B. Heart                                  | F. Lung       |
| C. Heart/Lung                             | H. Islet Cell |
| D. Liver (including Living Donor Liver)   |               |

2. By submitting this application to the OPTN, the applicant acknowledges that its duly authorized representatives have received and read the current Charter, Bylaws, and Policies of OPTN and the applicant agrees: (i) to be bound by the terms thereof, including amendments thereto, if the applicant is granted membership and (ii) to be bound by the terms, thereof, including amendments thereto, in all matters relating to consideration of the application without regard to whether or not the applicant is granted membership. The Criteria for Institutional Membership are found in the Bylaws which can be accessed on the OPTN website at <http://optn.transplant.hrsa.gov>.
3. A duly authorized representative of the applicant must review the answers and attachments to the application, perform sufficient investigation to determine accuracy and completeness, **and sign** and date the certification on the cover page of the application. Failure to furnish accurate and complete information in connection with the application and requests for supplemental information constitutes grounds for denial or suspension of OPTN membership. (Authorized representatives include hospital CEO/President and OPTN Representative. **Individuals whose credentials are being submitted should not sign the application.**)
4. Please attach additional pages as necessary and reference the question and page number on each attachment. **Table rows should be expanded as needed to fully respond to questions.**
5. Answer all questions in full and do not use both sides of the page. "See C.V." and "See Logs" are not acceptable answers. Do not omit pages that were not used.
6. Supporting documentation such as C.V.s, letters of support, letters of commitment, and patient logs, should be included as requested to document compliance with OPTN requirements. Documentation may be blinded in such a way as to protect patient confidentiality. Check lists are provided throughout the application to help applicants compile the documentation that is required. Each item in the checklist is cross referenced to the application questions.
7. Applications must be typed and complete.

8. Materials should be loose bound with tabs. Originals and copy should be organized in the following sequence:

- 1) Signed Cover/Certification page
- 2) General Section
- 3) Organ Specific Application(s)
- 4) Signed Program Coverage Plan(s) – one must be submitted for each organ-specific application
- 5) OPO letter of agreement or new contract
- 6) Documentation of Medicare/Medicaid certification for this program, if applicable (excluding pancreas.)
- 7) Letters from Hospital Credentialing Committee
- 8) Letters of Commitment
- 9) Letters of Reference
- 10) Logs of transplant and procurement procedures (and living donor hepatectomies/nephrectomies as applicable) for the primary surgeon(s) and patient logs for the primary physician. Title each log with surgeon/physician name, date range, and hospital where the experience occurred. Please use a separate log for each institution.
- 11) C.V.s (individual C.V.s must be stapled in the original and copy). Abbreviated C.V.s that do not include publications and presentations are preferred.
- 12) Cumulative Recipient log (Islet only)
- 13) Allocation Report (Islet only)

9. Return the original and one (1) complete paper copy of all application materials to the address listed below.

# GENERAL SECTION

**Applicants for initial membership:** Complete all sections of Parts 1 and 2 (General and Program Specific).

**Applicants for new programs in an existing member transplant hospital or for reactivation of an existing program(s):** Complete all sections of Part 2 (Program Specific) only.

Expand cells and increase the number of rows in tables as needed to provide a complete response.

## GENERAL: PART 1, SECTION A – TRANSPLANT HOSPITAL

Check the type(s) of organ transplant programs for which your transplant hospital is applying for membership:

Application (Check)	Program Type	Application (Check)	Program Type
	Kidney		Pancreas Islet Cell
	Living Donor Kidney		Heart
	Liver		Lung
	Living Donor Liver		Heart/Lung
	Pancreas		

Complete the portions of this application that apply to each program checked above.

- The Bylaws require that an applicant has in force medical liability insurance with at least \$1,000,000 limits of coverage per occurrence. Coverage must be provided by an insurer that is either:
  - licensed
  - approved by the insurance regulatory agency of the state in which the applicant's principal office is located.

In lieu of commercial insurance coverage, evidence of equivalent coverage through a funded self-insurance arrangement shall suffice.

- Is your hospital insured for professional liability with at least \$1,000,000 limits of coverage per occurrence? Yes \_\_\_\_\_ No \_\_\_\_\_
- If no, and you have a funded self-insurance program, give the name of the fund administrator and the amount of the self-insurance fund, and describe the coverage available to your institution from the fund.

Fund Administrator	Amount of Self Insurance Fund	Describe Coverage

- Will you require transplant surgeons and transplant physicians on your medical staff to carry professional liability insurance or to participate in a funded self-insurance program beyond what is described in "a" or "b" above? If yes, describe the amount of coverage or funded self-insurance that you will require.

Check Response	Required	Amount of Coverage/Self Insurance Required
	No	
	Yes	

**GENERAL: PART 1, SECTION B –  
DONATION AFTER CARDIAC DEATH (DCD) PROTOCOLS**

Donation after Cardiac Death (DCD). In accordance with the Bylaws, transplant hospitals must develop, and once developed must comply with, protocols to facilitate the recovery of organs from DCD donors. Transplant Hospital DCD recovery protocols must address the required model elements set forth in the Bylaws.

**Certification Statement**

The undersigned, as the duly authorized Chief Executive Officer, hereby certifies after investigation that to the best of his or her knowledge a Donation after Cardiac Death (DCD) organ recovery protocol has been developed, adopted and implemented in accordance with OPTN Bylaws and that the DCD organ recovery protocol addresses the required model elements.

## PROGRAM SPECIFIC: PART 2, SECTION A – PROGRAM DESCRIPTION

**Duplicate this section for each organ application that is being submitted**

Application (Check)	Program Type	Application (Check)	Program Type
	Kidney		Pancreas Islet Cell
	Living Donor Kidney		Heart
	Liver		Lung
	Living Donor Liver		Heart/Lung
	Pancreas		

1. Answer the questions below that describe this program (proposed program).

a) Year Program to Start/Started:			
	<b>Yes</b>	<b>No</b>	<b>Not Applicable</b>
b) Does/will this program perform transplants in patients under age 18?			
c) Is this hospital a stand-alone pediatric hospital?			
d) If no, is there a stand-alone pediatric hospital affiliated with this hospital? If yes, specify hospital: _____			
e) Will this program perform living donor transplants? (Applicable for kidney, liver, pancreas, and lung programs)			
f) Is this program certified by Medicare? If yes, provide the CMS provider number: _____ Certification date: _____ Attach evidence of Medicare certification.			
g) <b>Medicare approved programs:</b> If this is an application for a change in key personnel, have you notified CMS of this change?			

2. Is a Certificate of Need (CON) required by your state prior to initiation of this transplant program?  
Yes \_\_\_\_\_ No \_\_\_\_\_

If the response is "Yes" answer the questions below.

CON Required	Date Application Made	Application Approval Date	Anticipated Approval Date

## PROGRAM SPECIFIC: PART 2, SECTION B – FACILITIES

Transplant programs require extensive facilities and commitment of resources. Consequently, transplant hospitals must allocate sufficient operating and recovery room resources, intensive care resources, and surgical beds to the transplant program. Describe below how this hospital satisfies these requirements.

### 1. Floor and Clinic Space

Floor & Clinic Space	Response
a) Operating Room(s)	
b) Recovery Room(s)	
c) ICU	
d) Surgical Intensive Care (SICU)	
e) Step-Down Unit/Floor & Clinic	
f) Total Number of Days/Hours Available for Outpatient Transplant Clinic	
Additional Information:	

**PROGRAM SPECIFIC: PART 2, SECTION C – HUMAN RESOURCES**

1. **Mental Health and Social Services:** Describe the support that will be provided to the transplant program in the areas below. The description should include the name of the individuals, their on site availability, their role on the transplant team, and description of their responsibility for coordinating the needs of transplant candidates, recipients, living donors (as applicable) and families.

Area	Description of Support/ Scope of Duties
Mental Health	
Social Support Services	

2. **Clinical Nursing:** Describe the nursing support that will be provided to the transplant program(s).

Area	Response
What will be the patient nurse ratio on the transplant unit?	ICU: ____ Non-ICU: ____
Will the transplant nurse specialist be active in the care of patients on the transplant unit?	
What transplant specific orientation will be provided to a nurse before she/he is given responsibility for care of transplant patients?	

3. **Clinical Transplant Coordinator(s):** Identify one or more staff members who will be responsible for coordinating clinical aspects of patient care (including the candidate phase, transplant/inpatient phase, and recipient/outpatient phase). Indicate their transplant experience and relevant certifications.

Name	Transplant Experience In years	Professional Certifications

Indicate below the role and responsibilities of the clinical transplant coordinator(s).

<b>Role and Responsibilities</b>	<b>Yes</b>	<b>No</b>
Designated member of the transplant team		
The coordinator is a registered nurse or other licensed clinician		
<b>Specific responsibilities during candidate phase:</b>		
Assures necessary studies are conducted to determine a patient's candidacy		
Participates in both patient and family education		
Assists in the evaluation and selection of potential living donors		
Monitors medical patients' status throughout work-up and while on the deceased donor organ transplant waiting list		
<b>Specific responsibilities during transplant/inpatient phase:</b>		
Assumes lead in directing all patient and family transplant education and understanding of the process		
Maintains communication with patients' referring physicians		
Acts as a transplant resource for all staff nurses and contributes to their education regarding transplantation		
Works as liaison between patient families and other health care staff		
Prepares patients for discharge and outpatient follow-up		
<b>Specific responsibilities during recipient/outpatient phase:</b>		
Monitors and follows all diagnostic studies		
Evaluates patient health status on a regular basis		
Communicates all patient issues and concerns to appropriate transplant physicians		
Coordinates comprehensive care with other team members (i.e. financial coordinator, social worker, dietician, etc.)		
<b>Describe any other clinical transplant responsibilities:</b>		
<b>Involved with the organ procurement process? If Yes, explain scope of involvement.</b>		

4. **Financial Coordinator:** All transplant hospitals should identify one or more staff members who are responsible for coordinating and assisting the patient with all financial aspects specific to transplant care.

Indicate the number of transplant financial coordinators that support this program \_\_\_\_\_ (FTE).

Indicate below which responsibilities are fulfilled by the financial coordinator(s).

<b>Role and Responsibilities</b>	<b>Yes</b>	<b>No</b>
Designated member of the transplant team		
Primarily responsible for coordinating financial services related to transplant care		
Obtains detailed patient insurance benefit information for all aspects of the transplant process, including, but not limited to, outpatient prescription drugs, organ acquisition, follow-up clinic visits, and travel and housing if necessary		
Discusses benefits and other transplant financial issues with patients and/or family members during initial evaluation.		
Advises patients on insurance and billing issues and options. Serves as a resource for patients and their family members on financial matters.		
Obtains all necessary payor authorizations. Verifies transplant coverage and other medical benefits and acquiring necessary referrals and authorizations.		

<b>Role and Responsibilities</b>	<b>Yes</b>	<b>No</b>
Monitors and updates information regarding insurance data, physicians, authorizations, and preferred providers. Assists patients with questions concerning insurance and other financial issues.		
Identifies and effectively communicates financial information to transplant team members, patients and their families with emphasis on identifying any potential patient out-of-pocket liability		
Works with patients, their families and team members when possible to help address insurance coverage gaps via alternative funding options		
Facilitates resolution of patient billing issues.		

5. **Clinical Transplant Pharmacist:** All transplant programs should identify one or more pharmacists who are responsible for providing pharmaceutical care to solid organ transplant recipients.

Number of transplant pharmacists that support this program: \_\_\_\_\_ (FTE).

On average what percentage of time is spent by the pharmacist (s) on transplant related duties: \_\_\_\_\_%

Indicate below which responsibilities are fulfilled by the transplant pharmacist(s).

<b>Role and Responsibilities</b>	<b>Yes</b>	<b>No</b>
Designated member of the transplant team		
Primary responsibility for providing comprehensive pharmaceutical care to transplant recipients		
The transplant pharmacist is a licensed pharmacist with experience in transplant pharmacotherapy, who performs or oversees a team of other healthcare personnel and support staff in performing the functions listed below		
<b>Specific responsibilities during Peri-operative Phase:</b>		
Evaluates, identifies and resolves medication related problems for transplant recipients		
Educates transplant recipients and their family members on transplant medications and adherence to medication regimen		
Acts as liaison (advocate) between patient and patients' families and other health care team members regarding medication issues		
Prepares and actively participates with discharge planning for all transplant recipients		
Provides drug information for all members of the transplant team		
<b>Specific responsibilities during Post Transplant Phase:</b>		
Evaluates transplant recipient medication regimens routinely		
Communicates all transplant recipient medication issues and concerns to appropriate members of the transplant team		
Assists with designing, implementing, and monitoring of comprehensive care plans with other transplant team members (i.e. physicians, transplant coordinators, financial coordinator, social worker, dietician, etc.)		
<b>Describe additional responsibilities:</b>		

6. **Anesthesiology Commitment:** All transplant hospitals must show evidence of collaborative involvement with experts in the field of anesthesiology.

- a) Does this hospital/program have a director of transplant anesthesiology and/or an anesthesiology service chief for the organ covered in this application?      \_\_\_ Yes      \_\_\_ No
- If yes, provide this individual's C.V.

Describe the director's experience in transplantation.

	Description		
Does the director provide clinical care for transplant recipients? If yes, for which of the following organs? (Options: kidney, liver, small bowel, pancreas, heart, lung)			
Does the director provide: (check all that apply)	<input type="checkbox"/> Intraoperative care <input type="checkbox"/> Postoperative care		
Approximately how many transplants of the applied for organ type has the director participated in?	Options: • <10    ___ • 10-20    ___ • 20-30    ___ • >30    ___		
	<b>Yes</b>	<b>No</b>	<b>Explanation</b>
Does the department of anesthesiology or the hospital medical staff have a credentialing process for transplant anesthesiologists?			If yes, (check all that apply): <input type="checkbox"/> Proctored by experienced group member <input type="checkbox"/> Visit other hospital <input type="checkbox"/> Other: (describe) ___
Has the director attended transplant-related CME meetings in the last 2 years?			
Was the director's transplant experience for the organ covered in this application obtained at this hospital? (Please describe transplant experience within the C.V.)			

- b) Which of the following best describes the anesthesiology care?
- Care for transplant procedures will be provided exclusively by members of a transplant anesthesiology team
  - Care for transplant procedures will be provided by members of a transplant anesthesiology team and other non-team members
  - Care for transplant procedures will be distributed among anesthesiology department members
- c) How many anesthesiologists, including the director, will participate in transplant care?

# Anesthesiologists	Yes
2-4	
4-6	
6-8	
8-10	
10-15	
>15	

- d) Is there a written protocol for the conduct of anesthesia?  Yes  No

- e) In what way do the anesthesiologists participate in transplant patient care?

Phase of Patient Care	Yes	No	If Requested
See patients preoperatively?			
Participate on the Selection Committee?			
Consultation preoperatively with subspecialists (e.g. cardiologists, pulmonologists) as needed for specific cases?			
Participate in M&M Conferences?			

7. **Other Medical Discipline Involvement:** Describe briefly the support available to the transplant effort in the disciplines listed below. Each description should answer the following:
- When are these services provided? (pre-, peri-, and post-operative)
  - Where are these services provided? (on site, off site, or both)
  - Is support primarily provided by one individual or a team? What is their experience in transplant?
  - Are specialty representatives participating with the transplant team in quality assessments post transplant?

**9. Administration:**

- a) Describe administrative relationships of the transplant program with the hospital (include an organizational chart).
- b) Describe the institutional commitment to this program and the hospital resources that are committed to this program for the next two years.
- c) Describe the role of the transplant administrator and their areas of oversight.
- d) Describe how the transplant program routinely reviews or will review its performance. Please indicate the type, frequency of meetings, and participants (by title).

e) Is there a plan for hospital administration to receive periodic performance reports for the transplant program?  
If yes, indicate frequency and the data that will be reported.

- Describe the steps taken to identify and correct problems that may affect the program's success.
- Provide a list of quality metrics that you use/will use for tracking this transplant program (include name of responsible staff member).

f) Who is responsible for ensuring that the hospital is in compliance with OPTN requirements and policies?

**Name:** \_\_\_\_\_

**Title:** \_\_\_\_\_

10. **Data Collection and Submission:** In accordance with the OPTN policies, members must submit data on candidates, recipients, and donors.

a) Describe the methods that will to be used to collect, verify, and submit data on a timely basis.

b) List the personnel who are or will be responsible for data collection and submission, indicating their background in this area and the percentage of their time that is dedicated to data collection and submission.

Name	% of Time Dedicated to this Transplant Program	Background

## PROGRAM SPECIFIC: PART 2, SECTION D – PROTOCOLS/METHODS/PROCEDURES

### 1. Patient/Candidate Management (expand response space as needed):

- a) Are there written policies and procedures for transplantation and patient management?  Yes  No

How often will these be reviewed and who participates in the review?

- b) Describe below how candidates/recipients will move through the pre-, peri-, and post-transplantation process (from identification and referral, selection committee review process, patient notification, post surgery/post transplant care and plan/policy for transitioning patients back to referring doctors post-transplant) as applicable. The description should include:

- resources involved with each step (address expected average volume of patients moving through the system at any given time)
- the process for continuous review of patients currently waitlisted for transplant

- c) What outreach programs exist?

- d) How are patient calls and questions handled? How are outpatient emergencies handled?

- e) What provisions are made for patient assistance/funding for temporary housing, medications, etc.?

- f) Who participates in transplant team meetings (by role, not name)? Are rounds conducted with a multi-disciplinary team?

### 2. Outpatient Care

	Response
Who directs/will direct the outpatient transplant clinic?	
Which physicians and surgeons (will) participate regularly in the transplant clinic? Include frequency of clinics.	
Who will care/cares for transplant patients after initial discharge?	
How often will/are transplant patients seen for long-term follow-up?	

3. **Patient Selection Criteria** - Transplant programs must establish procedures for selecting transplant candidates and distributing organs in a fair and equitable manner.

	<b>Response</b>
Is there standard protocol in place for patient evaluation?	
Are there formal exclusion criteria for acceptance?	
Who gives final approval for adding patients to the waiting list?	<input type="checkbox"/> Single Individual <input type="checkbox"/> Committee If committee, list members and frequency of meetings (by role).

4. **Immunosuppression**

	<b>Yes</b>	<b>No</b>
Is there a standard immunosuppression protocol?		
Do individual team members use separate protocols?		
Who manages immunosuppression? Initial hospitalization:  First 3 months out-patient:  Long-term (after 3 months post-op):		
Describe the interactions of team members in providing immunosuppression management.		

5. Articulate plans for any transplant-related services provided outside the hospital. This includes, but is not limited to, plans to assure immediate access to services and to assure patient safety during transports to off-site facilities.
- Provide a letter of support or agreement from each off-site provider.

## PROGRAM SPECIFIC, PART 2, SECTION E – BUSINESS/IMPLEMENTATION PLAN

The availability of a business/implementation plan is identified as a critical element in developing a successful transplant program. The OPTN requests that the CEO at each transplant hospital to certify that such a business/implementation plan exists in support of the application.

**This certification is required in the following situations:**

- **when applying for institutional membership**
- **establishing a new transplant program**
- **reactivating a transplant program**

The following basic factors are integral and should be addressed in any adopted Plan:

### Institutional Level

- Hospital Overview (ownership, management, history, etc.)
- Market Assessment (local/regional need for transplant service line; why did the hospital decide to start a transplant program/this specific transplant program?)
- Financial Assessment (financial impact/costs/reimbursement sources)
- Commitment (money, physical plant, employee resources, etc.)
- Capability Assessment (chart to demonstrate that the institution is aware of everything that needs to be in place for a successful program)
- Organizational Chart (transplant program fits where in the hospital structure? report structure/oversight responsibility)

### Program Level

- Internal and External Interactions and Responsibilities (demonstrate that the program understands all of the people/organizations they must work with – patients, hospital staff, external organizations, etc.)
- First Year Plan/Timeline
- Infrastructure/Operations
  - Staffing Model (initial, retention and succession planning)
  - Resource Assessment (physical resources, IT, collaboration with other organizations, etc.)
- Marketing (professional and community value recognition)
- Risk Assessment (financial risks, staffing succession plan, exit strategy)
- Organizational Chart (program report and staff interaction)
- Quality Assurance and Process Improvement Plan

### **Certification Statement**

The undersigned, as the duly authorized Chief Executive Officer, hereby certifies after investigation that to the best of his or her knowledge a Business Plan/Implementation Plan has been developed, adopted and will be consulted regarding the institutional commitments being made and acknowledged in this transplant program application.

**PROGRAM SPECIFIC: PART 2, SECTION F- ORGAN PROCUREMENT ARRANGEMENTS**

1. Who takes organ offer calls? How do you handle internally?
  
2. Are there exiting Alternative Local Units (ALU) or variances that will be impacted by this proposed program?  
If yes, has the hospital agreed to participate?  
If no, explain.

**Respond to question 3 below if you are applying for a new transplant program in an existing member transplant hospital. New transplant hospital applicants must complete Part 5 (Organ Procurement Arrangements) question 1 and either section A or B.**

3. Attach a letter of agreement or contract with your OPO that specifically indicates it will provide the organs for which you are applying.

## Part 3: Heart Transplant Program

### PART 3A: Personnel – Transplant Program Director(s)

1. Identify the transplant program surgical and/or medical director(s) of the heart transplant program (include C.V.). Briefly describe the leadership responsibilities for each.

Check List	Question Reference	Required Supporting Documents
	3A 1	Current C.V.

Name	Date of Appointment	Primary Areas of Responsibility

### PART 3B, Section 1: Personnel – Surgical – Primary Surgeon

1. **Primary Heart Transplant Surgeon.** Refer to the Bylaws for the necessary qualifications and more specific descriptions of the required supporting documents listed below.

Check List	Question Reference	Required Supporting Documents
	3B, 1a	Current C.V.
	3B, 1b	Letter from the Credentialing Committee of the applicant hospital stating that the surgeon meets all requirements to be in good standing. Please provide an explanation of any status other than active/full.
	3B, 1c, f, g	Letter from the Surgeon detailing his/her commitment to the program and describing their transplant training/experience
	3B, 1f	Formal Training: A letter from the training director verifying that the fellow has met the requirements
	3B, 1f	Formal Training: A log (organized by date) of the transplant and procurement procedures.
	3B, 1g	Transplant Experience: A letter from the program director verifying that the individual has met the requirements
	3B, 1g	Transplant Experience: A log (organized by date) of the transplant and procurement procedures
		Other Letters of Recommendation (Reference)
		Letter of recommendation attesting to the individual's overall qualifications to act as primary surgeon and addressing the individual's personal integrity, honesty, familiarity with and experience in adhering to OPTN requirements and compliance protocols, and other matters as deemed appropriate.

- a) Name: \_\_\_\_\_
- b) Date of employment at this hospital (MM/DD/YY): \_\_\_\_\_  
Date assumed role of primary surgeon (MM/DD/YY): \_\_\_\_\_

Does individual have FULL privileges at this hospital?

\_\_\_\_\_ Yes Provide copy of hospital credentialing letter.

\_\_\_\_\_ No If the individual does **not** have full privileges, explain why, and provide the date the individual will be considered for full privileges. Include an explanation that describes the scope of privileges.

c) Percentage of professional time spent at this hospital: \_\_\_\_\_ % = \_\_\_\_\_ hrs/week

d) List other hospitals, health care facilities, and/or medical group practices and percentage of professional time spent on site at each:

Facility	Type	Location (City, State)	% Professional Time Spent on Site

e) Board certification type(s) or equivalent. If board certification is pending, indicate the date the exam has been scheduled. If individual has been recertified, please use that date.

Certification Type	Certificate Effective Date (MM/DD/YY)	Certificate Valid Through Date (MM/DD/YY)	Certification Number

- f) **Formal Training:** List the name of the transplant hospital(s) at which heart transplant training (residency/fellowship) was received including program director(s) names, applicable dates, and the number of transplants and procurements performed. If the surgeon is qualifying as primary surgeon through residency or fellowship training, also submit the supporting documents listed below. Refer to the Bylaws for the necessary qualifications and detailed descriptions of the required supporting documents:
- A letter from the program director verifying that the individual has met the requirements.
  - A log (organized by date) of the transplant and procurement procedures. The log should include a medical record/OPTN ID Number, transplant/procurement date, and the surgeon's role in the procedure (i.e., primary or 1st assistant). These logs must be signed by the director of the training program.

## **PART 3B, Section 2: Personnel – Additional/Other Surgeons**

Complete this section of the application to describe the involvement, training, and experience of any other surgeons participating in the program. **Surgeons must be designated as Additional or Other as described below.** All surgeons must be listed in Table 1 (Certificate of Investigation) of this application.

The Bylaws provide the following definition of Additional Transplant Surgeon:

*Additional Transplant Surgeons must be credentialed by the institution to provide transplant services and be able to independently manage the care of transplant patients including performing the transplant operation and procurement procedures.*

Surgeons that also support this program but who do not meet the definition of “primary” or additional,” should complete this section as well. The type should be indicated as “other.”

Duplicate pages as needed.

**Table 2: Program Coverage Plan**

Please answer the questions below and provide a written copy of the current Program Coverage Plan. The plan must be signed by either:

- a. the OPTN/UNOS Representative;
- b. the Program Director(s); or
- c. the Primary Surgeon and/or the Primary Physician.

In accordance with the Bylaws, the program director, in conjunction with the primary transplant surgeon and transplant physician, must submit a written Program Coverage Plan which documents how 100% medical and surgical coverage is provided by individuals credentialed by the hospital to provide transplant service for the program. A transplant program served by a single surgeon or physician shall inform its patients of this fact and potential unavailability of one or both of these individuals, as applicable, during the year. The Program Coverage Plan must address the following requirements:

	Yes	No
Is this a single surgeon program?		
Is this a single physician program?		
If the answer to either one of the above questions is "Yes," explain the protocol for notifying patients.		
Does this transplant program have transplant surgeon(s) and physician(s) available 365 days a year, 24 hours a day, 7 days a week to provide program coverage?		
If the answer to the above question is "No," an explanation must be provided that justifies why the current level of coverage should be acceptable to the MPSC.		
Transplant programs shall provide patients with a written summary of the Program Coverage Plan at the time of listing and when there are any substantial changes in program or personnel. Has this program developed a plan for notification?		
Is a surgeon/physician available and able to be on the hospital premises within one-hour ground transportation time to address urgent patient issues?		
Is a transplant surgeon readily available in a timely manner to facilitate organ acceptance, procurement, and implantation?		
Unless exempted by the MPSC for specific causal reasons, the primary transplant surgeon/primary transplant physician cannot be designated as the primary surgeon/primary transplant physician at more than one transplant hospital unless there are additional transplant surgeons/transplant physicians at each of those facilities. Is this program requesting an exemption? If yes, provide explanation below.

## **PART 3B, Section 2: Personnel – Additional/Other Surgeons**

Complete this section of the application to describe the involvement, training, and experience of any other surgeons participating in the program. **Surgeons must be designated as Additional or Other as described below.** All surgeons must be listed in Table 1 (Certificate of Investigation) in this application.

The Bylaws provide the following definition of Additional Transplant Surgeon:

*Additional Transplant Surgeons must be credentialed by the institution to provide transplant services and be able to independently manage the care of transplant patients including performing the transplant operation and procurement procedures.*

Surgeons that also support this program but who do not meet the definition of “primary” or additional” should complete this section as well. The type should be indicated as “other.”

## Table 2: Program Coverage Plan

Please answer the questions below and provide a written copy of the current Program Coverage Plan. The plan must be signed by either:

- a. the OPTN/UNOS Representative;
- b. the Program Director(s); or
- c. the Primary Surgeon and Primary Physician.

In accordance with the Bylaws, the program director, in conjunction with the primary transplant surgeon and transplant physician, must submit to UNOS a written Program Coverage Plan which documents how 100% medical and surgical coverage is provided by individuals credentialed by the transplant hospital to provide transplant service for the program. A transplant program served by a single surgeon or physician shall inform its patients of this fact and potential unavailability of one or both of these individuals, as applicable, during the year. The Program Coverage Plan must address the following requirements:

	Yes	No
Is this a single surgeon program?		
Is this a single physician program?		
If the answer to either one of the above questions is "Yes," explain the protocol for notifying patients.		
Does this transplant program have transplant surgeon(s) and physician(s) available 365 days a year, 24 hours a day, 7 days a week to provide program coverage?		
If the answer to the above question is "No," an explanation must be provided that justifies why the current level of coverage should be acceptable to the MPSC.		
Transplant programs shall provide patients with a written summary of the Program Coverage Plan at the time of listing and when there are any substantial changes in program or personnel. Has this program developed a plan for notification?		
Is a surgeon/physician available and able to be on the hospital premises within one-hour ground transportation time to address urgent patient issues?		
Is a transplant surgeon readily available in a timely manner to facilitate organ acceptance, procurement, and implantation?		
Unless exempted by the MPSC for specific causal reasons, the primary transplant surgeon/primary transplant physician cannot be designated as the primary surgeon/primary transplant physician at more than one transplant hospital unless there are additional transplant surgeons/transplant physicians at each of those facilities. Is this program requesting an exemption? If yes, provide explanation below.

### Part 3: Lung Transplant Program

#### PART 3A: Personnel – Transplant Program Director(s)

1. Identify the transplant program surgical and/or medical director(s) of the lung transplant program (include C.V.). Briefly describe the leadership responsibilities for each.

Check List	Question Reference	Required Supporting Documents
	3A, 1	Current C.V.

Name	Date of Appointment	Primary Areas of Responsibility

#### PART 3B, Section 1: Personnel – Surgical – Primary Surgeon

1. **Primary Lung Transplant Surgeon.** Refer to the Bylaws for the necessary qualifications and more specific descriptions of the required supporting documents listed below.

Check List	Question Reference	Required Supporting Documents
	3B, 1a	Current C.V.
	3B, 1b	Letter from the Credentialing Committee of the applicant hospital stating that the surgeon meets all requirements to be in good standing. Please provide an explanation of any status other than active/full.
	3B, 1c,g,h	Letter from the surgeon detailing his/her commitment to the program and describing their transplant experience/training
	3B, 1f	Formal Training: A letter from training director verifying that the fellow has met the requirements
	3B, 1f	Formal Training: A log (organized by date) of the transplant and procurement procedures
	3B, 1g	Transplant Experience: A letter from program director verifying that the individual has met the requirements
	3B, 1g	Transplant Experience: A log (organized by date) of the transplant and procurement procedures
		Other Letters of Recommendation (Reference)
		Letter of recommendation attesting to the individual's overall qualifications to act as primary surgeon and addressing the individual's personal integrity, honesty, familiarity with and experience in adhering to OPTN requirements and compliance protocols, and other matters as deemed appropriate.

a) Name: \_\_\_\_\_

b) Date of employment at this hospital (MM/DD/YY): \_\_\_\_\_

Date assumed role of primary surgeon (MM/DD/YY): \_\_\_\_\_

Does individual have FULL privileges at this hospital?

\_\_\_\_\_ Yes Provide copy of hospital credentialing letter.

\_\_\_\_\_ No If the individual does **not** have full privileges, explain why, and provide the date the individual will be considered for full privileges. Include an explanation that describes the scope of privileges.

c) Percentage of professional time spent at this hospital: \_\_\_\_\_% = \_\_\_\_\_ hrs/week

- d) List below the hospitals, health care facilities, and medical group practices and percentage of professional time this individual is on site at each:

<b>Facility</b>	<b>Type</b>	<b>Location (City, State)</b>	<b>% Professional Time Spent on Site</b>

- e) Board certification type(s) or equivalent. If board certification is pending, indicate the date the exam has been scheduled. If individual has been recertified, please use that date.

f) **Transplant Training:** List the name of the transplant hospital(s) at which lung and/or heart/lung transplant training (residency/fellowship) was received including program director(s) names, applicable dates, and the number of transplants and procurements performed. If the surgeon is qualifying as the primary surgeon through residency or fellowship training also submit the supporting documents listed below. Refer to the Bylaws for the necessary qualifications and detailed descriptions of the required supporting documents:

- A letter from program director verifying that the fellow has met the requirements.
- Logs (Tables 4A and 4B) of the transplant and procurement procedures. The logs should include a patient identifier/OPTN ID Number, transplant/procurement date, and the surgeon's role in the procedure (i.e., primary or 1st assistant). These logs must be signed by the director of the training program.

List all transplant surgeons and physicians currently involved in this program.

The Bylaws state that “*Each primary surgeon or primary physician, listed on the application as a part of the plan for who shares coverage responsibility, shall submit an assessment, subject to medical peer review confidentiality requirements and which follows guidelines provided in the application and is satisfactory to the MPSC, of all physicians and surgeons participating in the program regarding their involvement in prior transgressions of UNOS requirements and plans to ensure that the improper conduct is not continued.*” (Emphasis Added)

- a) This hospital has conducted its own peer review of all surgeons and physicians listed below to ensure compliance with applicable OPTN/UNOS Bylaws.

**Table 2: Program Coverage Plan**

Please answer the questions below and provide a written copy of the current Program Coverage Plan. The plan must be signed by either:

- a. the OPTN/UNOS Representative;
- b. the Program Director(s); or
- c. the Primary surgeon and Primary Physician.

In accordance with the Bylaws, the program director, in conjunction with the primary transplant surgeon and transplant physician, must submit to UNOS a written Program Coverage Plan which documents how 100% medical and surgical coverage is provided by individuals credentialed by the transplant hospital to provide transplant service for the program. A transplant program served by a single surgeon or physician shall inform its patients of this fact and potential unavailability of one or both of these individuals, as applicable, during the year. The Program Coverage Plan must address the following requirements:

	Yes	No
Is this a single surgeon program?		
Is this a single physician program?		
If the answer to either one of the above questions is "Yes," explain the protocol for notifying patients.		
Does this transplant program have transplant surgeon(s) and physician(s) available 365 days a year, 24 hours a day, 7 days a week to provide program coverage?		
If the answer to the above question is "No," an explanation must be provided that justifies why the current level of coverage should be acceptable to the MPSC.		
Transplant programs shall provide patients with a written summary of the Program Coverage Plan at the time of listing and when there are any substantial changes in program or personnel. Has this program developed a plan for notification?		
Is a surgeon/physician available and able to be on the hospital premises within one-hour ground transportation time to address urgent patient issues?		
Is a transplant surgeon readily available in a timely manner to facilitate organ acceptance, procurement, and implantation?		
Unless exempted by the MPSC for specific causal reasons, the primary transplant surgeon/primary transplant physician cannot be designated as the primary surgeon/primary transplant physician at more than one transplant hospital unless there are additional transplant surgeons/transplant physicians at each of those facilities. Is this program requesting an exemption? If yes, provide explanation below.

Membership Criteria	Yes
9. Transplant Medicine Fellowship – <i>for board certified or eligible Pediatric Nephrologists</i>	
a. Involved with 10 or more pediatric kidney transplants	
b. Followed 30 patients a minimum of 6 months post-transplant	
c. Experience with pre-, peri-, and post-operative care of 10 pediatric kidney transplants	
d. Observed 3 organ procurement procedures and 3 kidney transplants	
e. Observed the evaluation of the donor and donor process and management of at least 3 multiple organ donors that include the kidney	
10. Pediatric - Combined Training/Experience - <i>for board certified or eligible Pediatric Nephrologists</i>	
a. Two or more years experience (gained during or after fellowship or as an accumulation during both periods)	
b. Involved in the primary care of 10 or more kidney transplants on pediatric patients (including pre-, peri-, and post-operative care)	
c. Followed 30 patients a minimum of 6 months post-transplant	
d. Observed 3 organ procurement procedures and 3 kidney transplants	
e. Observed the evaluation of the donor and donor process and management of at least 3 multiple organ donors that include the kidney	
11. Conditional Pathway – <i>Only available to Existing Programs</i>	
a. Center conducts 60 or more kidney transplants per year	
b. Physician provides primary care for 23 or more kidney transplants recipients from the time of their transplant	
c. Minimum of 12 months on an active kidney transplant service acquired over a maximum of 2 years	
d. Consulting relationship with counterparts at another approved kidney transplant center (include letter of support)

## PART 3C, Section 2: Personnel – Additional/Other Physicians

Complete this section of the application to describe the involvement, training, and experience of other physicians associated with the program. **Physicians must be designated as Additional or Other as described below.** All physicians must be listed on Table 1 (Certificate of Investigation) in this application.

The Bylaws provide the following definition of Additional Transplant Physician:

*Additional Transplant Physicians must be credentialed by the institution to provide transplant services and be able to independently manage the care of transplant patients.*

Physicians that also support this program but who do not meet the definition of “primary” or “additional,” should complete this section of the application. The type should be indicated as “other.”

### Part 3D: Living Donor Kidney Transplantation

Complete this section only if submitting a new application for living donor kidney transplantation.

It is recognized that in the case of pediatric living donor transplantation, the living organ donation may occur at a transplant hospital that is distinct from the approved transplant center. If this program performs pediatric transplants, please list any other hospitals where the donor evaluation and surgery may routinely occur.

Hospital Name	Location

### Part 3D, Section 1 Personnel – Primary Renal Donor Surgeon – Open Nephrectomy

The laparoscopic and open donor nephrectomy expertise may reside within the same or different individuals. Refer to the Bylaws for the necessary qualifications and provide the following documents:

Check List	Question Reference	Required Supporting Documents
	4A, 1	Current C.V.
	4A, 1d	Letter from the Credentialing Committee of the applicant hospital stating that the surgeon meets all requirements to be in good standing. Please provide an explanation of any status other than active/full.
	4A, 1c, e, & f	Letter from the surgeon detailing his/her commitment to the program and describing their previous experience/training.
	4A, 1e, i	ASTS Certificate in kidney (as applicable)
	4A, 1g	Log of nephrectomies

1. Name: \_\_\_\_\_

- a) This surgeon participates in \_\_\_\_ Open Nephrectomies \_\_\_\_ Laparoscopic Nephrectomies (Check all that apply)
- b) Date of employment at this hospital (MM/DD/YY): \_\_\_\_\_  
Date assumed role of primary surgeon (MM/DD/YY): \_\_\_\_\_
- c) Percentage of professional time spent supporting living kidney transplantation: \_\_\_\_\_ % = \_\_\_\_\_ hrs/week
- d) Does individual have FULL privileges at this hospital?  
 \_\_\_\_ Yes Provide copy of hospital credentialing letter.  
 \_\_\_\_ No If the individual does **not** have full privileges, explain why, and provide the date the individual will be considered for full privileges. Include an explanation that describes the scope of privileges.
- e) Experience/ Training
  - i) Qualifying by ASTS Fellowship with a certificate in kidney

	Yes	No
Did this individual complete an accredited ASTS fellowship with a certificate in kidney?		
If "Yes," complete the questions below and provide a copy of the certificate.		
Transplant hospital:		
Fellowship program director:		
Date of training (MM/DD/YY) Start: _____ End: _____		

ii) Qualifying by Experience/Training:

	Yes	No
Has this individual performed at least 10 open nephrectomies (living donor nephrectomies, deceased donor nephrectomies, and/or removal of polycystic or diseased kidneys) as the primary surgeon or first assistant within the past 5 years?		

f) Complete TABLE 4E (at the end of this document) summarizing this individual's training and experience. Include the number of open nephrectomies (and laparoscopic if applicable) in which the individual participated as the primary surgeon or first assistant.

g) Donor Recovery Log: Provide documentation that demonstrates that this individual has experience as the primary surgeon or first assistant in at least 10 open nephrectomies (living donor nephrectomies, deceased donor nephrectomies, and/or removal of polycystic or diseased kidneys) within the past 5 years. A blank log for documenting open and laparoscopic living donor nephrectomies has been provided as TABLE 4F in this application.

Documentation should include the date of the surgery, medical records identification, and/or UNOS identification number, the role of the surgeon in the operative procedure, and the type of procedure. A current Procedural Terminology (CPT) code for the procedure is included.

h) Describe the proposed primary donor surgeon's level of involvement in the program for which the application is being made. If applicable, describe the surgeon's plan for coverage of transplant programs located in multiple transplant centers.

**Part3D, Section 2: Personnel – Primary Renal Donor Surgeon - Laparoscopic Nephrectomy**

The laparoscopic and open nephrectomy expertise may reside within the same or different individuals.

Refer to the Bylaws for the necessary qualifications and provide the following documents:

Check List	Question Reference	Required Supporting Documents
	4B, 1	Current C.V.
	4B, 1d	Letter from the Credentialing Committee of the applicant hospital stating that the surgeon meets all requirements to be in good standing. Please provide an explanation of any status other than active/full.
	4B, 1c, e, f, & h	Letter from the surgeon detailing his/her commitment to the program and describing their previous experience/training
	4B, 1g	Log of nephrectomies

1. Name: \_\_\_\_\_

a) This surgeon participates in \_\_\_\_ Open Nephrectomies \_\_\_\_ Laparoscopic Nephrectomies (Check all that apply)

b) Date of employment at this hospital (MM/DD/YY): \_\_\_\_\_

 \_\_\_\_\_ Yes Provide copy of hospital credentialing letter.  
 \_\_\_\_\_ No If the individual does **not** have full privileges, explain why, and provide the date the individual will be considered for full privileges. Include an explanation that describes the scope of these privileges.

e) Experience/Training:

	Yes	No
Does this individual have experience as the primary surgeon or first assistant in at least 15 laparoscopic nephrectomies (living donor nephrectomies, deceased donor nephrectomies, and/or removal of polycystic or diseased kidneys) within the past 5 years?		

f) Complete TABLE 4E in this document summarizing this individual’s training and experience. Include the number of laparoscopic nephrectomies (and open nephrectomies if applicable) in which the individual participated as the primary surgeon or first assistant.

- g) Donor Recovery Log: Provide documentation that demonstrates that this individual has experience as the primary surgeon or first assistant in performing at least 15 laparoscopic nephrectomies within the past 5 years. A blank log for documenting open and laparoscopic living donor nephrectomies has been provided as TABLE 4F in this application (duplicate as necessary).

Documentation should include the date of the surgery, medical records identification, and/or UNOS identification number, the role of the surgeon in the operative procedure, and the type of procedure. A current Procedural Terminology (CPT) code for the procedure is optional but recommended. It is recognized that in the case of pediatric kidney donor transplantation, the live organ donation may occur at a center that is distinct from the approved transplant center.

- h) Describe the proposed primary donor surgeon's level of involvement in the program for which the application is being made or associated recovery hospital. If applicable, describe the surgeon's plan for coverage of transplant programs located in multiple transplant centers.

- i) Conversion Coverage Plan: If the open and laparoscopic expertise resides within different individuals, then the program must document how both individuals will be available to the surgical team. Describe how the center will handle surgical decisions and coverage for the laparoscopic to open conversion.

**Part3D, Section 3: Personnel – Renal Donor Surgeons**

**Open and Laparoscopic Donor Nephrectomy Surgeons.** Complete this section for each surgeon, other than the designated primary(ies) who will be performing living donor nephrectomies at this center. Provide the following documents:

If this application is being submitted for a change in personnel then you only need to complete this section for individuals whose credentials were not submitted in a previous application from this hospital.

Check List	Question Reference	Required Supporting Documents
	4C, 1	Current C.V.
	4C, 1d	Letter from the Credentialing Committee of the applicant hospital stating that the surgeon meets all requirements to be in good standing. Provide an explanation of any status other than active/full.

 \_\_\_\_ Yes Provide copy of hospital credentialing letter.  
 \_\_\_\_ No If the individual does **not** have full privileges, explain why and provide the date the individual will be considered for full privileges. Include an explanation that describes the scope of privileges.
- e) Complete TABLE 4E (at the end of this document) summarizing this individual’s training and experience. Include the number of open and laparoscopic nephrectomies in which the individual participated as the primary surgeon or first assistant.
- f) Describe the donor surgeon’s level of involvement in the program for which the application is being made.

**Part 3D, Section 4: Other Staff and Resources**

Complete this section only if applying for initial approval for living donor kidney transplantation.

1. How does the center assess that the short and long term risks for the potential living donor are acceptable to the medical staff at the transplant center and the donor? The response needs to address the following: evaluation, consent, surgical risk, and long-term donor considerations for being made uninephric.

2. Mental Health and Social Support Services: Identify the designated members of the transplant team who have primary responsibility for coordinating the psychosocial needs of living donors. Describe their role in this process (expand rows as needed).

Name	Role in Providing Support to Living Donors

Does the program have the ability to perform a psychosocial assessment of the donor to

- make an informed decision? Yes \_\_\_ No \_\_\_
- affirm voluntary nature of proceeding with the evaluation and donation? Yes \_\_\_ No \_\_\_

3. Describe how the program meets the requirement for having an Independent Donor Advocate (IDA) who is not involved with the potential recipient evaluation and who is independent of the decision to transplant the potential recipient.

**Part 3D, Section 5: Protocols**

1. Kidney transplant programs that perform living donor kidney recoveries must demonstrate that they have written protocols as listed below. Submission of protocols is not required as a part of this application.

Written protocols must address at a minimum the areas listed below:	Included in Protocol?	
	Yes	No
Protocols addressing all phases of living donation process: <ul style="list-style-type: none"> <li>• Evaluation</li> <li>• Pre-Operative</li> <li>• Operative</li> <li>• Post-Operative care</li> <li>• Submission of follow up forms.</li> </ul>		
IDA – descriptions of duties and responsibilities: Include the following elements: <ul style="list-style-type: none"> <li>• Promotes the best interests of the potential living donor</li> <li>• Advocates the rights of the potential living donor</li> <li>• Assists the potential donor in obtaining and understanding information regarding the consent process, evaluation process, surgical procedure, and benefit and need for follow-up</li> </ul>		
Medical evaluation by a physician and/or surgeon experienced in living donation to assess and minimize risks to the potential donor post-donation, which shall include a screen for any evidence of occult renal and infectious disease and medical co-morbidities, which may cause renal disease		
Psychosocial Evaluation of the potential living donor by a psychiatrist, psychologist, or social worker with experience in transplantation to <ul style="list-style-type: none"> <li>• determine decision making capacity,</li> <li>• screen for any pre-existing psychiatric illness, and</li> <li>• evaluate any potential coercion.</li> </ul>		
Screening for evidence of transmissible diseases such as cancers and infections		
Anatomic assessment of the suitability of the organ for transplant purposes		
Informed Consent for Donor Evaluation Process and Donor Nephrectomy: <ul style="list-style-type: none"> <li>• Discussion of the potential risks of the procedure including the medical, psychological, and financial risks associated with being a living donor</li> <li>• Assurance that all communication between the potential donor and the transplant center will remain confidential</li> <li>• Discussion of the potential donor’s right to opt out at any time during the donation process</li> <li>• Discussion that the medical evaluation or donation may impact the potential donor’s ability to obtain health, life, and disability insurance</li> <li>• Disclosure by the transplant center that it is required, at a minimum, to submit living donor follow-up forms addressing the health information of each living donor at 6 months, one-year, and two-year post donation. The protocol must include a plan to collect the information about each donor.</li> <li>• Documentation of disclosure to donor candidate by the hospital that it is unlawful to sell or purchase human organs</li> </ul>		

2. Describe how the hospital will assess its compliance with each protocol listed above. (Use complete sentences)

Reference Only

## Table 1: Certificate of Investigation

List all transplant surgeons and physicians currently involved in the program.

The Bylaws state that “Each primary surgeon or primary physician, listed on the application as a part of the plan for who shares coverage responsibility, shall submit an assessment, subject to medical peer review confidentiality requirements and which follows guidelines provided in the application and is satisfactory to the MPSC, of all physicians and surgeons participating in the program regarding their involvement in prior transgressions of UNOS requirements and plans to ensure that the improper conduct is not continued.” (Emphasis Added)

- a) This hospital has conducted its own peer review of all surgeons and physicians listed below to ensure compliance with applicable OPTN/UNOS Bylaws.

## Table 2 – Program Coverage Plan

Please answer the questions below and provide a written copy of the current Program Coverage Plan. The plan must be signed by either:

- a. the OPTN/UNOS Representative;
- b. the Program Director(s); or
- c. the Primary Surgeon and Primary Physician.

In accordance with the Bylaws, the program director, in conjunction with the primary transplant surgeon and transplant physician, must submit a written Program Coverage Plan, which documents how 100% medical and surgical coverage is provided by individuals credentialed by the hospital to provide transplant service for the program. A transplant program served by a single surgeon or physician shall inform its patients of this fact and potential unavailability of one or both of these individuals, as applicable, during the year. The Program Coverage Plan must address the following requirements:

	Yes	No
Is this a single surgeon program?		
Is this a single physician program?		
If the answer to either one of the above questions is "Yes," explain the protocol for notifying patients.		
Does this transplant program have transplant surgeon(s) and physician(s) available 365 days a year, 24 hours a day, 7 days a week to provide program coverage?		
If the answer to the above question is "No," an explanation must be provided that justifies why the current level of coverage should be acceptable to the MPSC.		
Transplant programs shall provide patients with a written summary of the Program Coverage Plan at the time of listing and when there are any substantial changes in program or personnel. Has this program developed a plan for notification?		
Is a surgeon/physician available and able to be on the hospital premises within one-hour ground transportation time to address urgent patient issues?		
Is a transplant surgeon readily available in a timely manner to facilitate organ acceptance, procurement, and implantation?		
Unless exempted by the MPSC for specific causal reasons, the primary transplant surgeon/primary transplant physician cannot be designated as the primary surgeon/primary transplant physician at more than one transplant hospital unless there are additional transplant surgeons/transplant physicians at each of those facilities. Is this program requesting an exemption? If yes, provide explanation below.

**m) Living Donor Liver Applicants Only:**

Provide documentation (complete Table 4C) that demonstrates that this individual has experience as the primary surgeon or first assistant in 20 major hepatic resection surgeries, including at least 7 living donor hepatectomies, within the past 5 years.

These cases must be documented. Documentation should include the date of the surgery, medical records identification, and/or OPTN/UNOS identification number, the role of the surgeon in the operative procedure, the type of procedure and the Current Procedural Terminology (CPT) code for the procedure. A blank log for documenting these procedures has been provided at the end of this application (Table 4C). It is recognized that in the case of pediatric living donor transplantation, the living organ donation may occur at a hospital that is distinct from the approved transplant hospital.

**Please note:** When documenting involvement in living donor hepatectomies, be sure to specify that the procedure was performed on the donor if the corresponding CPT code is not provided (e.g., left lobectomy – donor).

2. **Primary Living Donor Liver Transplant Surgeon #2.** Complete this section ONLY if applying for approval to perform living donor liver transplantation or a change in key personnel for one of the primary living donor liver transplant surgeons. Refer to the Bylaws for the necessary qualifications and more specific descriptions of the required supporting documents listed below.

Complete this section of the application to describe the involvement, training, and experience of other surgeons associated with the program. **Surgeons must be designated as Additional or Other as described below.** All surgeons must be listed in Table 1 (Certificate of Investigation) in this application.

The Bylaws provide the following definition of Additional Transplant Surgeon:

*Additional Transplant Surgeons must be credentialed by the institution to provide transplant services and be able to independently manage the care of transplant patients including performing the transplant operation and procurement procedures.*

Surgeons that also support this program but who do not meet the definition of “primary” or additional” should complete this section as well. The type should be indicated as “other.”

- j) Summarize how the transplant physician's experience fulfills the membership criteria. (Check all that apply)

Membership Criteria	Yes
1. On site	
2. M.D., D.O. or equivalent degree from another country	
3. Certified in Gastroenterology by the American Board of Internal Medicine, American Board of Pediatrics or the foreign equivalent	
4. Direct involvement in liver transplant patient care within the last 2 years.	
5. Transplant Hepatology Fellowship	
a. Participated in 12 month transplant hepatology fellowship	
b. Participated in primary care of 30 or more liver transplant recipients for a minimum of 3 months from the time of their transplant	
c. Observed 3 organ procurement procedures and 3 liver transplants	
d. Observed the evaluation of the donor and donor process and management of at least 3 multiple organ donors that include the liver	
6. Experience in Liver Transplantation (Post Fellowship)	
a. 2-5 years experience on an active liver transplant service	
b. Participated in the primary care of 50 or more liver transplant recipients for a minimum of 3 months from the time of their transplant over a 2-5 year period	
c. Observed 3 organ procurement procedures and 3 liver transplants	
d. Observed the evaluation of the donor and donor process and management of at least 3 multiple organ donors that include the liver	
7. Pediatric Gastroenterology Fellowship (3 years)	
a. Fellowship training program accredited by the ACGME RRC-Ped	
b. Transplant program at which training takes place performs an average of at least 10 liver transplants on pediatric patients per year.	
c. Participated in the primary care of 10 or more pediatric liver transplant recipients	
d. Followed 20 liver transplant recipients for a minimum of 3 months from the time of their transplant	
e. Direct involvement in the pre-, peri-, and post-operative care of 10 or more pediatric liver recipients	
f. Observed 3 organ procurement procedures and 3 liver transplants	

Membership Criteria	Yes
g. Observed the evaluation of the donor and the donor process and management of at least 3 multiple organ donors that include the liver	
<b>8. Transplant Medicine Fellowship – <i>for Board-Certified or Eligible Pediatric Gastroenterologists</i></b>	
a. Transplant program at which training takes place performs an average of at least 10 liver transplants on pediatric patients per year.	
b. Participated in the primary care of 10 or more pediatric liver transplant recipients	
c. Followed 20 liver transplant recipients for a minimum of 3 months from the time of their transplant	
d. Direct involvement in the pre-, peri-, and post-operative care of 10 or more pediatric liver recipients	
e. Observed 3 organ procurement procedures and 3 liver transplants	
f. Observed the evaluation of the donor and the donor process and management of at least 3 multiple organ donors that include the liver	
<b>9. Combined Training/Experience – <i>for Board-Certified or Eligible Pediatric Gastroenterologists</i></b>	
a. Two or more years of experience accumulated during fellowship, after fellowship or during both periods at a UNOS-approved liver transplant hospital	
b. Participated in the primary care of 10 or more liver transplants on pediatric patients	
c. Followed 20 liver transplant recipients for a minimum of 6 months from the time of their transplant	
d. Directly involved in the pre-, peri- and post-operative care of 10 or more liver transplants in pediatric patients	
e. Observed 3 organ procurement procedures and 3 liver transplants	
f. Observed the evaluation of the donor and the donor process and management of at least 3 multiple organ donors that include the liver	
<b>10. Pediatric Pathway</b>	
a. Program serves predominantly pediatric patients	
b. Individual has maintained current working knowledge in all aspects of liver transplantation and patient care within the last 2 years	
c. Hospital has petitioned the Membership and Professional Standards Committee (MPSC) for approval	
d. A preliminary interview before the Membership and Professional Standards Committee shall be required	
<b>11. 12-month Conditional Pathway – <i>Only available to Existing Programs</i></b>	
a. Board Certified Gastroenterologist/Hepatologist	
b. Involved in the primary care of 25 or more liver transplant recipients for a minimum of 3 months from the time of their transplant	
c. Minimum of 12 months on an active liver transplant service acquired over a maximum of 2 years for individuals qualifying by virtue of acquired clinical experience	
d. Consulting relationship with counterparts at another approved liver transplant hospital established (include letter of support)

## **Additional Instructions for PART 3C, Section 2: Personnel –Additional/Other Physician(s)**

Complete this section of the application to describe the involvement, training, and experience of other physicians associated with the program. **Physicians must be designated as Additional or Other as described below.** All physicians must be listed in Table 1 (Certificate of Investigation) in this application.

The Bylaws provide the following definition of Additional Transplant Physician:

*Additional Transplant Physicians must be credentialed by the institution to provide transplant services and be able to independently manage the care of transplant patients.*

Physicians that also support this program, but who do not meet the definition of “primary” or “additional” should complete this section as well. The type should be indicated as “other.”

Duplicate pages as needed.

### PART 3D: Living Donor Liver Transplantation

Complete this section ONLY if applying for initial approval for living donor liver transplantation.

It is recognized that in the case of pediatric living donor transplantation, the living organ donation may occur at a hospital that is distinct from the approved transplant hospital. If this program performs pediatric transplants, please list any other hospitals where the donor evaluation and surgery may routinely occur.

Hospital Name	Location

#### PART 3D, Section 1: Other Staff and Resources

- How does the hospital assess that the short and long term risks for the potential living donor are acceptable to the medical staff at the transplant hospital and the donor? The response needs to address the following: evaluation, consent, surgical risk, and long-term donor considerations.
- Mental Health and Social Support Services: Identify the designated members of the transplant team who have primary responsibility for coordinating the psychosocial needs of living donors. Describe their role in this process. (Expand rows as needed.)

Name	Role in Providing Support to Living Donors

Does the program have the ability to perform a psychosocial assessment of the donor to:

- make an informed decision? Yes \_\_\_ No \_\_\_
- affirm voluntary nature of proceeding with the evaluation and donation? Yes \_\_\_ No \_\_\_

- Describe how the program meets the requirement for having an Independent Donor Advocate (IDA) who is not involved with the potential recipient evaluation and who is independent of the decision to transplant the potential recipient.

## Part 3D, Section 2: Living Donor Liver Transplantation – Protocols

1. Liver transplant programs that perform living donor liver recoveries must demonstrate that they have written protocols as listed below. Submission of actual protocol is not required as a part of this application.

Written protocols must address at a minimum the areas listed below:	Included in Protocol?	
	Yes	No
Protocols addressing all phases of living donation process: <ul style="list-style-type: none"> <li>• Evaluation</li> <li>• Pre-Operative</li> <li>• Operative</li> <li>• Post-Operative care</li> <li>• Submission of follow up forms</li> </ul>		
IDA – descriptions of duties and responsibilities Include the following elements: <ul style="list-style-type: none"> <li>• Promotes the best interests of the potential living donor</li> <li>• Advocates the rights of the potential living donor</li> <li>• Assists the potential donor in obtaining and understanding information regarding the consent process, evaluation process, surgical procedure, and benefit and need for follow-up</li> </ul>		
Medical evaluation by a physician and/or surgeon experienced in living donation to assess and minimize risks to the potential donor post-donation, which shall include a screen for any evidence of occult liver disease		
Psychosocial evaluation of the potential living donor by a psychiatrist, psychologist, or social worker with experience in transplantation to <ul style="list-style-type: none"> <li>• Determine decision making capacity</li> <li>• Screen for any pre-existing psychiatric illness</li> <li>• Evaluate any potential coercion</li> </ul>		
Screening for evidence of transmissible diseases such as cancers and infections		
Radiographic assessment to ensure adequate anatomy and volume of the donor and of the remnant liver		
Informed consent for donor evaluation process and donor hepatectomy: <ul style="list-style-type: none"> <li>• Discussion of the potential risks of the procedure including the medical, psychological, and financial risks associated with being a living donor</li> <li>• Assurance that all communication between the potential donor and the transplant hospital will remain confidential</li> <li>• Discussion of the potential donor’s right to opt out at any time during the donation process</li> <li>• Discussion that the medical evaluation or donation may impact the potential donor’s ability to obtain health, life, and disability insurance</li> <li>• Disclosure by the transplant hospital that it is required, at a minimum, to submit Living Donor Follow-up forms addressing the health information of each living donor at 6 months, one-year, and two-years post donation. The protocol must include a plan to collect the information about each donor.</li> <li>• Documentation of disclosure to donor candidate by the hospital that it is unlawful to sell or purchase human organs</li> </ul>		

2. Describe how the hospital will assess compliance with each protocol listed above. (Use complete sentences.)

Reference Only

## Table 1: Certificate of Investigation

List all transplant surgeons and physicians currently involved in the program.

The Bylaws state that *“Each primary surgeon or primary physician, listed on the application as a part of the plan for who shares coverage responsibility, shall submit an assessment, subject to medical peer review confidentiality requirements and which follows guidelines provided in the application and is satisfactory to the MPSC, of all physicians and surgeons participating in the program regarding their involvement in prior transgressions of UNOS requirements and plans to ensure that the improper conduct is not continued.” (Emphasis Added)*

- a) This hospital has conducted its own peer review of all surgeons and physicians listed below to ensure compliance with applicable OPTN/UNOS Bylaws.

Names of Surgeons*

Names of Physicians*

- b) If prior transgressions were identified has the hospital developed a plan to ensure that the improper conduct is not continued?     Yes     No     Not Applicable
- c) If yes, what steps are being taken to correct the prior improper conduct or to ensure the improper conduct is not repeated in this program? Provide a copy of the plan.

I certify that this review was performed for each named surgeon and physician according to the hospital’s peer review procedures.

## Table 2– Program Coverage Plan

Please answer the questions below and provide a written copy of the current Program Coverage Plan. The plan must be signed by either:

- a. the OPTN/UNOS Representative;
- b. the Program Director(s); or
- c. the Primary Surgeon and Primary Physician.

In accordance with the Bylaws, the program director, in conjunction with the primary transplant surgeon and transplant physician, must submit a written Program Coverage Plan, which documents how 100% medical and surgical coverage is provided by individuals credentialed by the hospital to provide transplant service for the program. A transplant program served by a single surgeon or physician shall inform its patients of this fact and potential unavailability of one or both of these individuals, as applicable, during the year. The Program Coverage Plan must address the following requirements:

	Yes	No
Is this a single surgeon program?		
Is this a single physician program?		
If the answer to either one of the above questions is “Yes,” explain the protocol for notifying patients		
Does this transplant program have transplant surgeon(s) and physician(s) available 365 days a year, 24 hours a day, 7 days a week to provide program coverage?		
If the answer to the above question is “No,” an explanation must be provided that justifies why the current level of coverage should be acceptable to the MPSC		
Transplant programs shall provide patients with a written summary of the Program Coverage Plan at the time of listing and when there are any substantial changes in program or personnel. Has this program developed a plan for notification?		
Is a surgeon/physician available and able to be on the hospital premises within one-hour ground transportation time to address urgent patient issues?		
Is a transplant surgeon readily available in a timely manner to facilitate organ acceptance, procurement, and implantation?		
Unless exempted by the MPSC for specific causal reasons, the primary transplant surgeon/primary transplant physician cannot be designated as the primary surgeon/primary transplant physician at more than one transplant hospital unless there are additional transplant surgeons/transplant physicians at each of those facilities. Is this program requesting an exemption? If yes, provide explanation below.

Log should demonstrate that this individual has experience as the primary surgeon or first assistant in 20 major hepatic resection surgeries, including at least 7 living donor hepatectomies, within the past 5 years.

These cases must be documented. Documentation should include the date of the surgery, medical records identification and/or UNOS identification number, the role of the surgeon in the operative procedure, the type of procedure, and a Current Procedural Terminology (CPT) code for the procedure. It is recognized that in the case of pediatric living donor transplantation, the living organ donation may occur at a hospital that is distinct from the approved transplant hospital.

**Please note:** When documenting involvement in living donor hepatectomies, be sure to specify that the procedure was performed on the donor if the corresponding CPT code is not provided (e.g., left lobectomy – donor).

## **PART 3B, Section 2: Personnel – Additional/Other Surgeons**

Complete this section of the application to describe the involvement, training, and experience of any other surgeons participating in the program. **Surgeons must be designated as Additional or Other as described below.** All surgeons must be listed on Table 1 (Certificate of Investigation) in this application.

The Bylaws provide the following definition of Additional Transplant Surgeon:

*Additional Transplant Surgeons must be credentialed by the institution to provide transplant services and be able to independently manage the care of transplant patients including performing the transplant operation and procurement procedures.*

Surgeons that also support this program but who do not meet the definition of “primary” or “additional” should complete this section as well. The type should be indicated as “other.”

Duplicate pages as needed.

## **PART 3C, Section 2: Personnel – Additional/Other Physicians**

Complete this section of the application to describe the involvement, training, and experience of other physicians associated with the program. **Physicians must be designated as Additional or Other as described below.**

All physicians must be listed in Table 1 (Certificate of Investigation) in this application.

The Bylaws provide the following definition of Additional Transplant Physician:

*Additional Transplant Physicians must be credentialed by the institution to provide transplant services and be able to independently manage the care of transplant patients.*

Physicians that also support this program but who do not meet the definition of “primary” or “additional” should complete this section of the application. The type should be indicated as “other.”

## Table 2 - Program Coverage Plan

Please answer the questions below and provide a written copy of the current Program Coverage Plan. The plan must be signed by either:

- a. the OPTN/UNOS Representative;
- b. the Program Director(s); or
- c. the Primary Surgeon and Primary Physician.

In accordance with the Bylaws, the program director, in conjunction with the primary transplant surgeon and transplant physician, must submit a written Program Coverage Plan, which documents how 100% medical and surgical coverage is provided by individuals credentialed by the hospital to provide transplant service for the program. A transplant program served by a single surgeon or physician shall inform its patients of this fact and potential unavailability of one or both of these individuals, as applicable, during the year. The Program Coverage Plan must address the following requirements:

	Yes	No
Is this a single surgeon program?		
Is this a single physician program?		
If the answer to either one of the above questions is "Yes," explain the protocol for notifying patients.		
Does this transplant program have transplant surgeon(s) and physician(s) available 365 days a year, 24 hours a day, 7 days a week to provide program coverage?		
If the answer to the above question is "No", an explanation must be provided that justifies why the current level of coverage should be acceptable to the MPSC.		
Transplant programs shall provide patients with a written summary of the Program Coverage Plan at the time of listing and when there are any substantial changes in program or personnel. Has this program developed a plan for notification?		
Is the "on call" surgeon/physician available within 30 miles of the hospital premises to address urgent patient issues?		
Is a transplant surgeon readily available in a timely manner to facilitate organ acceptance, procurement, and implantation?		
Unless exempted by the MPSC for specific causal reasons, the primary transplant surgeon/primary transplant physician cannot be designated as the primary transplant surgeon/primary transplant physician at more than one transplant hospital unless there are additional transplant surgeons/transplant physicians at each of those facilities. Is this program requesting an exemption? If yes, provide explanation below.

# Pancreas Islet Cell Transplant Program

## Part 3: Facilities

This section must be completed when applying for a new program or reactivating an existing program.

1. Does this hospital presently have an OPTN approved pancreas transplant program?  
\_\_\_ Yes \_\_\_ No. If No, Part 7 of this application will need to be completed.
2. Year Islet Cell Transplant Program to Start (or started): \_\_\_\_\_
3. Provide the following required documents:

Check list	Required Supporting Documents
	Documentation that verifies that the program has adequate clinical and laboratory facilities for pancreatic islet transplantation as defined by the current regulations provided by the Food and Drug Administration (FDA)
	Copy of the transplant hospital's IND application form (2 pages) and a copy of the letter from the FDA that verifies receipt of the application
	Copy of written documentation provided by the FDA that confirms the active status of the IND (if received by transplant hospital at the time of OPTN application submission)
	Letter of agreement or contract with the transplant hospital's OPO that specifically indicates it will provide the pancreas for islet cell transplantation

4. Islet Isolation – Pancreatic islets must be isolated in a facility with an FDA Investigational New Drug (IND) application in effect, with documented collaboration between the program and such facility. Provide a description of how this criterion is being met.

## PART 4: Personnel

### PART 4A: Personnel – Transplant Program Director(s)

1. Identify the Surgical and/or Medical Director(s) of the islet cell transplant program (include C.V.). Briefly describe the leadership responsibilities for each.

Check list	Question Reference	Required Supporting Documents
	4A, 1	Current C.V.

Name	Date of Appointment	Primary Areas of Responsibility

### PART 4B, Section 1: Personnel – Surgical – Primary Surgeon

1. **Primary Islet Cell Transplant Surgeon.** Refer to the Bylaws for the necessary qualifications and more specific descriptions of the required supporting documents. Provide the attachments listed below.

Check list	Question Reference	Required Supporting Documents
	4B, 1a	Current C.V.
	4B, 1c	Letter from the Credentialing Committee of the applicant hospital stating that the surgeon meets all requirements to be in good standing. Please provide an explanation of any status other than active/full.
	4B, 1d,g,h	Letter from the surgeon detailing his/her commitment to the program and describing his/her transplant experience/training.
	4B, 1g	Formal Training: A letter from the training director verifying that the fellow has met the requirements.
	4B, 1g	Formal Training: A log (organized by date) of the transplant and procurement procedures.
	4B, 1h	Transplant Experience: A letter from the program director verifying that the individual has met the requirements.
	4B, 1h	Transplant Experience: A log (organized by date) of the transplant and procurement procedures.
		Other Letters of Recommendation (Reference)
	Table 1	Letter(s) of recommendation from person(s) named as primary surgeon and program director attesting to the individual's overall qualifications to act as primary surgeon and addressing the individual's personal integrity, honesty, familiarity with and experience in adhering to OPTN requirements and compliance protocols, and other matters as deemed appropriate.

- a) Name: \_\_\_\_\_
- b) Is this individual presently designated as the OPTN primary pancreas transplant surgeon for the pancreas transplant program? \_\_\_\_\_ Yes \_\_\_\_\_ No.
  - If yes, supply the first 3 documents and the final document in the checklist above and answer question "i."
  - If no, complete questions "c"-"k."

- c) Date of employment at this hospital (MM/DD/YY): \_\_\_\_\_  
 Date assumed role of primary surgeon (MM/DD/YY): \_\_\_\_\_

Does individual have FULL privileges at this hospital?

\_\_\_\_\_ Yes Provide copy of hospital credentialing letter.

\_\_\_\_\_ No If the individual does **not** have full privileges, explain why, and provide the date the individual will be considered for full privileges. Include an explanation that describes the scope of privileges.

- d) Percentage of professional time spent at this hospital: \_\_\_\_\_% = \_\_\_\_\_ hrs/week

- e) List below the hospitals, health care facilities, and medical group practices and percentage of professional time this individual is on site at each:

Facility	Type	Location (City, State)	% Professional Time Spent on Site

- f) Board certification type(s) or equivalent. If board certification is pending, indicate the date the exam has been scheduled. If individual has been recertified, please use that date.

Certification Type	Certificate Effective Date (MM/DD/YY)	Certificate Valid Through Date (MM/DD/YY)	Certification Number

- g) Transplant Training (Fellowship): List the name of the transplant hospital(s) at which pancreas, kidney/pancreas, and/or islet cell transplant training (fellowship) was received. Include the program director(s) name(s), applicable dates, and the number of transplants and procurements performed. If the surgeon is qualifying as primary surgeon through fellowship training, also submit the supporting documents listed below. Refer to the Bylaws for the necessary qualifications and detailed descriptions of the required supporting documents:
- A letter from program director verifying that the fellow has met the requirements.
  - Logs of the transplant and procurement procedures (Tables 4A and 4B). The logs should include a patient identifier/OPTN ID Number, transplant/procurement date, and the surgeon's role in the procedure (i.e., primary or 1st assistant). These logs must be signed by the director of the training program.

## **PART 4B, Section 2: Personnel – Additional/Other Surgeons**

Complete this section of the application to describe the involvement, training, and experience of any other surgeons participating in the program. **Surgeons must be designated as Additional or Other as described below.** All surgeons must be listed in Table 1 (Certificate of Investigation) in this application.

The Bylaws provide the following definition of Additional Transplant Surgeon:

*Additional Transplant Surgeons must be credentialed by the institution to provide transplant services and be able to independently manage the care of transplant patients including performing the transplant operation and procurement procedures.*

Surgeons that also support this program but who do not meet the definition of “primary” or additional,” should complete this section as well. The type should be indicated as “other.”

## Part 6: Programs Not Located at an Approved Pancreas Transplant Hospital

A program that meets all requirements for a pancreatic islet transplant program set forth in the Bylaws, including, without limitation, requirements applicable generally for membership and without regard to organ specificity, with the sole exception that the program is not located at a transplant hospital approved under the Bylaws to perform whole pancreas transplantation, may nevertheless qualify as a pancreatic islet transplant program.

**A preliminary interview with the Membership and Professional Standards Committee is required for programs seeking approval under this pathway.**

Please provide the following additional documentation to demonstrate that this program can qualify for approval under this pathway.

1. Provide documentation of an affiliation relationship with an OPTN approved pancreas transplant program, including on site admitting privileges at this applicant hospital for the primary whole pancreas transplant surgeon and physician.

a) Name of Affiliated transplant hospital: \_\_\_\_\_

b) Name of designated surgeon: \_\_\_\_\_

Percentage of time on site: \_\_\_\_\_

Provide the following supporting documentation for this surgeon:

## Table 2 - Program Coverage Plan

Please answer the questions below and provide a written copy of the current Program Coverage Plan. The plan must be signed by either:

- a. the OPTN/UNOS Representative;
- b. the Program Director(s); or
- c. the Primary Surgeon and Primary Physician.

In accordance with the Bylaws, the program director, in conjunction with the primary transplant surgeon and transplant physician must submit to UNOS a written Program Coverage Plan, which documents how 100% medical and surgical coverage is provided by individuals credentialed by the transplant hospital to provide transplant service for the program. A transplant program served by a single surgeon or physician shall inform its patients of this fact and potential unavailability of one or both of these individuals, as applicable, during the year. The Program Coverage Plan must address the following requirements:

	Yes	No
Is this a single surgeon program?		
Is this a single physician program?		
If the answer to either one of the above questions is "Yes," explain the protocol for notifying patients.		
Does this transplant program have transplant surgeon(s) and physician(s) available 365 days a year, 24 hours a day, 7 days a week to provide program coverage?		
If the answer to the above question is "No," an explanation must be provided that justifies why the current level of coverage should be acceptable to the MPSC.		
Transplant programs shall provide patients with a written summary of the Program Coverage Plan at the time of listing and when there are any substantial changes in program or personnel. Has this program developed a plan for notification?		
Is the "on call" surgeon/physician available within 30 miles of the hospital premises to address urgent patient issues?		
Is a transplant surgeon readily available in a timely manner to facilitate organ acceptance, procurement, and implantation?		
Unless exempted by the MPSC for specific causal reasons, the primary transplant surgeon/primary transplant physician cannot be designated as the primary transplant surgeon/primary transplant physician at more than one transplant hospital unless there are additional transplant surgeons/transplant physicians at each of those facilities. Is this program requesting an exemption? If yes, provide explanation below.

**Table 4E - Reporting: Islet Cell Transplants Performed by Transplant Hospital**

**Center Code** \_\_\_\_\_

Once approved, the program must submit data to UNOS through use of standardized forms. Data requirements include submission of information on all deceased and living donors, potential transplant recipients, and actual transplant recipients. Pending development of standardized data forms for pancreatic islet transplantation, the program must provide patient logs to UNOS every six months and on an annual basis, reporting transplants performed, by patient name, social security number, date of birth, and donor identification number, as well as whether patient is alive or dead, and whether the pancreas was allocated for islet or whole organ transplantation. The logs shall be cumulative.
