Ongoing Committee Initiatives

- Modified flagging methodology
  - Analyzing flagging methodologies for lower than expected outcomes
- **December 2012** – MPSC agreed to re-evaluate modified flagging thresholds based on changes to PSR models
- **April 2013** – MPSC considered comparison analysis results and different flagging thresholds
Donor Vessel Usage

OPTN Policy 5.10 requires that recovered donor vessels be used ONLY for the implantation or modification of a solid organ transplant.
