

OPO Committee Update

**Board of Directors Meeting
November 12-13, 2012**

Richard Pietroski, MS

Recent Proposals

Proposal to Require Documentation of All Unique Identifiers Used to Label Tissue Typing Materials

- This was approved yesterday on the consent agenda

Proposal to Modify DCD Model Elements

- The decision was made to not submit this proposal to the Board
- The Committee is still addressing issues with the policy language based on public comment.

Current Public Comment Proposal

Imminent & Eligible Death Data Collection

- The Committee is concerned about the inconsistencies found in the I & E death data reporting and are proposing modifications to the Imminent and Eligible Definitions found in Policy 7.0.
- The Committee has developed a list of organ specific exclusionary criteria and have proposed the elimination of MSOF as a criterion.
- These changes will help to eliminate inconsistent reporting and make the data more valuable.

Current Committee Projects

- OPO Scorecard Threshold
- Packaging and Labeling
- Evaluation Plan Rewrite
- Uncontrolled DCD

Joint Projects

- Sharing Updated Donor Information (with DTAC)
- Rerunning the Match Run (with DTAC and Ops & Safety)
- Ex-Vivo Lung Perfusion (with Thoracic)
- Defining Exhausting the Match Run (with Ad Hoc International Relations)

Other Work

- HRSA Innovation Grant for Tracking and Traceability
- Vessel Policy Work Group (with Ops & Safety)
- ABO Verification Work Group (with Ops & Safety)
