OPTN Strategic Planning and operational updates

Brian Shepard, UNOS COO
November 12, 2012
OPTN Strategic Plan

- Increase the number of transplants
- Increase access to transplants
- Improve survival for patients post-transplant
- Promote transplant patient safety
- Promote living donor safety
- Promote efficient management of the OPTN
Increase the number of transplants

- MPSC reviewing OPO performance metrics for the first time at the committee’s December meeting
- An ad hoc committee to review improvements to the PSRs has been appointed, met, and begun working in subcommittees
- DDPS has been submitted for HRSA review
Increase access to transplants

- Liver committee considering new SRTR modeling tools for liver distribution
- MAC surveys of referral practices being readied for publication
- POC discussing multi-organ allocation
Improve survival for patients post-transplant

- Kidney policy proposal out for public comment

- PAC has released updated “What Every Patient Needs to Know”
Promote transplant patient safety

- New labeling pilot project underway to explore ways to reduce human error in documentation
- MPSC is beginning to discuss program and physician currency requirements
Promote living donor safety

- Living donor committee has kidney policy proposals for the Board to consider today

- January webinar scheduled for living donor policy education

- LD Committee and Joint Societies Workgroup are working on living liver donor policy

- LD and MPSC committees are discussing separate program status, separate outcome measures for living donor components of programs
Promote efficient management of the OPTN

- OPTN/CMS crosswalk of on-site survey requirements released Nov 1
- OPTN/CMS sample ABO forms near release
- POC continues to examine and refine project prioritization process
- Instruction department has developed new Board orientation plans, including mentors
- Policy rewrite ongoing, Evaluation Plan rewrite underway
North Highland recommendations related to OPTN operations
North Highland recommendations related to OPTN operations

- Strategic plan adopted
- Retooled approach to education and outreach
- Improvements in DEQ intake process
- Formal DEQ-Policy communication
- Department reorganizations, mission clarification
- Development of a metric-driven, organization-wide quality approach underway

OPTN
Forward from here

- Dashboards for Board to track progress toward plan goals

- Annual Executive Committee review and potential adjustment of strategic plan
