

TRANSPLANT HOSPITAL O.R. STAFF PLEASE READ!

****Organ Tracking Device Inside****
Please return tracking device in this
prepaid UPS envelope

Inside this clear envelope on the outside of the organ box, you should find:

- A black (or white) organ tracking device
- A light brown envelope with a UPS label on it
- This piece of paper you're reading

Please take the tracking device, drop it in the UPS envelope, seal the envelope, and put it in your hospital's UPS pickup site. (Don't know where that is? Call your facilities department). You do not have to turn on or turn off the tracking device; whether its light is on, off, or blinking.
