

Recipient Death Information

Report a recipient's death, or request an update to a recipient's previously reported death date.

Please note the following when reporting a recipient death: This request type requires that you are able to provide the Recipient's death date and graft status. If the graft was not functioning at time of death, then the graft failure date is also required.

If you are unable to provide both of these, please contact UNOS Customer Service at (800)978-4334 for further assistance.
