

# Using Extra Vessels Barcode Scan to Assist with Verification

This PDF highlights one of three ways a transplant hospital can view donor infectious disease testing results to assist with OPTN Policy compliance related to extra vessels transplantation.

*The other 2 options are: Paper record or labels that come with extra vessels  
Donor's record in DonorNet<sup>®</sup>*

Using the barcode scanner is not an OPTN requirement and you do not need a UNet<sup>SM</sup> login to use it. Anyone can scan this barcode as long as they have access to the extra vessels label.

## Benefits of Using the Barcode Scanner

Access to most current infectious disease donor information from DonorNet<sup>®</sup> without logging in

- Saves time
- Promotes patient safety

## Equipment Needed for Set Up

### Desktop:

A two dimensional barcode scanner (Most brands should work - UNOS recommends the Symbol DS4308)  
Access to Chrome or Internet Explorer (IE) 11 browsers

OR

**Mobile devices:** *(must be connected to the internet - Wi-Fi/cellular)*

**Apple/iOS-** TransNet<sup>SM</sup> scanner app downloaded onto device from App Store *(free)*

**Android-** Barcode Scanner ZXing Team app downloaded onto device from the Play Store *(free)*

## Functionality on TransNet<sup>SM</sup> Website <https://transnet.unos.org/>

Once you have the equipment and TransNet<sup>SM</sup> website added to the home screen of your device:

**1** Select the TransNet<sup>SM</sup> website icon on your device or desktop

**2** Select Extra Vessels icon from the homepage of the TransNet<sup>SM</sup> website

Extra vessels  
View infectious disease results

**3** Scan the Extra Vessels barcode

**4** Verify donor infectious disease data is displayed

**5** Document verification in the recipient's medical record

## Adding the TransNet<sup>SM</sup> icon to your home screen

### Apple/iOS

1. Navigate to the TransNet<sup>SM</sup> website in Safari
2. Tap the share button
3. Tap "Add to Home Screen"
4. The icon will appear on your home screen like any other app. You can drag and place it wherever you'd like

### Android

1. Navigate to the TransNet<sup>SM</sup> website in Chrome
2. Tap the menu button
3. Tap "Add to Home Screen"
4. The icon will appear on your home screen like any other app. You can drag and place it wherever you'd like

### Desktop

1. Navigate to the TransNet<sup>SM</sup> website in Chrome or IE 11
2. Highlight the URL
3. Click and drag the URL to your desktop
4. Right-click on the icon to rename it
